VSS COMPACT

VSS SAFETYLINE PERMANENT WARNING LINE

The VSS SafetyLine is a warning line system used to delineate a safe working area away from fall hazards. The VSS SafetyLine is 100% compliant with the OSHA and provincials permanent warning line standards.

- Complies with RSST and OSHA
- Made in Canada
- CAD drawings and specifications available!

VSS Safetyline | Montreal, QC

LADDER STABILIZER SYSTEM (LADPT101)

Delta Prevention's Ladder stabilizer system is designed to create safe access to roofs accessible by an extension ladder. The versatile and patented system can be installed without anchoring in a few minutes on flat roofs with or without a parapet.

GUARDRAILS FOR ROOF ACCESS HATCH

The roof hatch guardrail protects access to the hatch and provides handholds to increase safety entering or exiting the ladder. This guardrail also prevents falls into the hatch when it is left open.

- Clamp style or on counterweight
- HGKTSF01: for hatches up to 36"x36"
- HGKTOS01: for hatches up to 36"
